THE EVENT

Monday, April 11, 2011 – TPCR will join forces with the Major League Baseball Players Alumni Association to bring an exciting charity golf event to Houston, which will include;

- ❖ *Major league baseball players and other celebrities* – bring your own foursome and spend the day on the course with such great local names as Bob & Ken Aspromonte, Doug Drabek, Art Howe, Phil Garner, Jim Perry, Jimmy Wynn, Carl Warwick, Larry Dierker and many others.
- ❖ Experience *Redstone Golf Club*- one of the best courses in Houston and home to the annual PGA event, the Shell Houston Open. (SHO). SHO will be held just two weeks before this outing so there will be plenty of exposure for the course and it should be in terrific shape.
- ❖ Both a *live and silent auction* with many unique opportunities for autographed celebrity memorabilia and other great treasures.
- ❖ *NIKE Golf* merchandise & equipment at wholesale prices
- ❖ An *Awards Dinner &* cocktail hour to spend more time with the celebrities.
- ❖ *Celebrity Celebration Dinner* at Masraff's **BRAND NEW** Restaurant for major team sponsors & celebrities.

THE CAUSE

Prostate cancer is the leading cause of cancer death in men, but only five percent of federal research dollars are allocated to it. We hope that prostate cancer hasn't touched your life, but unfortunately for one in six, it has. Doctors often disagree on effective treatment forcing the patient to choose between quality and quantity of life, thus catapulting many into the throws of confusion and frustration. Tony's Prostate Cancer Research seeks to change that. The mission is simple - raise awareness of prostate cancer and fund research for a non-invasive cure. You can help.

TPCR is a 501 (c)(3) non-profit organization with a mission to raise awareness and support *the work of individual Research Scientists focused on discovering a non-invasive cure for prostate cancer*. Founded in 2002 by Tony Masraff, owner of Masraff's on Post Oak Lane, TPCR creates educational awareness and raises funds going towards research to find a non-invasive cure for prostate cancer.
